LS65/LS75 GN SR CDF – Spectrally Selective			X-C	X-C
RN-07 GREY SR CDF – True One-Way Mirror	X-C	X-C	X-C	X-C

- (X) indicates roll widths that are available.
- (C) indicates that 25, 50 and 75 linear foot rolls are available.
- (*) indicates that product is supplied in 75 linear foot rolls.
- A flat surcharge of \$20.00 per linear cut will apply.
- (◆) indicates that these products are not suitable for insulated glass or dual-pane applications. **DO NOT USE AUTOMOTIVE FILMS FOR FLAT GLASS USE.** There is no performance and there is no product warranty!
- (■) indicates that product is supplied in 10' increments; a flat surcharge of \$30.00 per linear cut will apply.
- Not all films are suitable for insulated glass or dual-pane applications. Specific films that fall into this category have now been identified on the flat glass width chart. Use the Llumar film-to-glass recommendation chart to determine suitability of any film for a particular application. Complete information is available on the Llumar technical website.
